Professional Summary

I'm Ferhat. I am an Industrial Engineering student at Çukurova University. I have previously taken on a few freelance frontend projects and successfully completed them. In the future, I aim to build a career in the fields of artificial intelligence and software. I want to improve myself in this area by enhancing both my technical and practical skills.

Professional Experience

Frontend Developer

Upwork

Freelance Frontend Developer

- Successfully completed 5 projects on the Upwork platform.
- Worked on a total of 8 freelance frontend projects, delivering tailored solutions to meet client needs.
- Designed user-friendly and visually appealing interfaces using HTML, CSS, JavaScript, Bootstrap, and modern frontend frameworks.
- Gained experience in client communication, project management, and timely delivery.
